

Yale SCHOOL OF PUBLIC HEALTH

Environmental Health Sciences

PRESENTATION

**At the crossroads of climate crisis, biodiversity,
sustainable agriculture, nutrition and public health**

Preceded by a short Extra Virgin Olive Oil tasting session

Antonis Tirpintiris, Sigri Olive Mill & Group Falcon SA

Mr. Tirpintiris is a true entrepreneur ever since he received his Mechanical and Electrical Engineer degree from the National Technical University of Athens. He founded the Sigri Olive Mill & Group Falcon SA, a model group promoting a sustainable, planet-friendly and bioculturally-sensitive olive agriculture model on the island of Lesbos, Greece. Antonis will share his vision and history of converting a deserted area on his native village of Sigri into a biodiversity paradise!

5-7 p.m. EST. Monday, April 17, 2023
60 College Street, Dean Conference room,
LEPH-105
